## NNAHU Awards

Vice President of Awards, Jay Eldridge, announced at the May, Board of Directors meeting that NNAHU has been awarded the Gold Certification for 2022 by the National Association of Health Underwriters.

The Gold Certification is an ongoing program that recognizes excelling chapters throughout the calendar year.

NNAHU handed out its own honor to Don Goldmann, who was awarded the "Stuart Michelle Annual 'Make It Happen' Award" at the chapter's spring Sales Exposition.

The award is an annual award recognizing the one member over the last year that helped to do what was necessary for the chapter to succeed.

## NNAHU Studies Mentor Program

The NNAHU Board of Directors have entered into discussions with the University of Nevada-Reno to create a mentoring program for students in the University's Department of Risk Management and Insurance Studies.

The chapter's board has reviewed a similar concept currently being developed by the California Association of Health Underwriter's Foundation.

It was discussed that the NAHU Educational Foundation might be used as a charitable trust through which the mentorship program could be run in order to make it possible for potential mentors to receive a tax deduction for "services in kind" when spending time mentoring participants.

David Cisneros, from the College of Business at the University of Nevada-Reno, was a guest at the April NNAHU luncheon, where the idea of creating an internship program was introduced and it is hoped that a more formal presentation can be presented in June.
